5 FINANCIAL

The income for Northern Cape is very small, as things standing now, we can hardly host anything without the riders/judges/members paying the biggest portion of the event. (judges seminars/rider clinics, etc)

Income for the province is generated by how many NC members registered with DSA and how many shows hosted in NC (how many entries for a show also plays a roll). Therefore the only way we can increase our NC income is by getting more members to register and hosting more and bigger shows.

Travelling to shows are getting more and more expensive, specially with the big distances our members have to travel and then there is also very expensive accommodation for the weekend. Areas needs to host more local shows, if riders don't have to travel that far and with no additional accommodation costs, maybe we can increase the show entries. Each area can then host one bigger show a year for which the other areas can travel to. This will reduce the costs for attending a show dramatically, hopefully more riders will then be able to enter for shows.

We are planning the following for 2019:

2 coaches clinics in each area

3 dressage talent camps in each area

1 judges seminar in each area

Coaches/riders/judges will pay most of the money for this events

6 ELECTION OF THE NEW NC DRESSAGE COMMITTEE
